The difference between appropriations and expenditures in some items on this sheet were due to abnormal conditions of

the past year. With the permission of the State Highway Department the T.R.A. money was used to cover part of the Flood damage. We also deemed it advisable to spend the balance of the Oiling and used it for Flood damage. The Town relief expense was less, due to the New Settlement law, under which several cases were taken over by the County. The balance left from the S.A.C. appropriation was due to accepting T.R.A. after the completion of the State Aid on Battle Street.

The statistical table shows that the district maintained its schools the full 360 half-days required, an increase of 12 over the previous year. There has been a slight decrease in the average attendance of the district. The percent of attendance remains about the same. The amount of tardiness per pupil is high and effort should be made to correct it. The total number of pupils registered in the district was 50. Nine high school pupils and two elementary, attend schools outside the district. This totals 61 pupils residing in the district and attending public schools.

In addition to the usual amount allowed in the budget for the maintenance of school buildings next year, provision should be made for the installation of another septic toilet at Putney Hill school. The old chemical toilet there is past repairing for more than this year. We shall be glad to see it go for it has always been unsatisfactory and costly to maintain. On the contrary the new type of septic toilet now in use for more than a year in the schools of the district has proven to be odorless, and involves no cost of maintenance except a small amount of water daily. To date both of the septic toilets in use in this district have resisted freezing.

In general the pupils of the schools made good progress in their studies during the year with the assistance of the teachers and other school officials.

Respectfully submitted,

JOHN A. SINCLAIR,
Superintendent of Schools.

REPORT OF SCHOOL NURSE

In accordance with the requirements of the State Board of Education, the school children of Webster were inspected and parents were notified of defects found. Some of these minor defects have been corrected and in the spring we hope to have the necessary dental, throat and eye attentions completed.

May I take this opportunity to thank the School Board and the teachers for their competent cooperation which is vital in school nursing.

Respectfully submitted,

CECILE L. CARROLL, R. N.
